## MC2025

# Call for Symposium Topics

Dear DGE Members,

the Three-Countries Conference MC2025 will take place in Karlsruhe (31.8.-4.9.2025) and will be organized by DGE together with ASEM and SSOM. To prepare the scientific program, the DGE Board would like to consider all competences of the DGE community. Therefore, we ask you as DGE member to suggest symposium topics in the fields of Materials Science, Life Science, and Methods and Instrumentation.

Please submit your ideas for symposium topics with a short abstract of the suggested symposium content (up to 1/2 page) and possible symposium organizers **until January, 31st 2024**.

Please email your suggestions to [gs@dge-homepage.de](mailto:gs@dge-homepage.de)

Christian Kübel (Conference Chair)

Katharina Hipp (President DGE 2024)
