

The Experimental Center at the University of Technology in Dresden (TUD) is seeking a Technical Assistant for electron microscopy (100%) for the Core Facility Cellular Imaging (CFCI). The position is immediately available, initially for two years. The central facility provides service and expertise in transmission electron microscopy for the research groups of the Medical Faculty Carl Gustav Carus.

Required qualifications:

- Degree as a technical assistant or equivalent qualification
- Experience in bio-medical electron microscopy (sample preparation, serial sectioning, immuno-labelling, data acquisition etc.)
- High degree of motivation, excellent interpersonal and organizational skills, ability to interact with users from different research groups
- Basic communication skills in verbal and written English.

Please send your application to: Prof. Thomas Müller-Reichert, Leiter Core Facility Cellular Imaging, Medizinische Fakultät Carl Gustav Carus der TU Dresden, E-mail: mueller-reichert@tu-dresden.de.
